**Notice of Second Addendum to the  
*LOCALIZED HEALTH IMPACTS REPORT*  
for  
*Selected Projects Awarded Funding Through the  
Alternative and Renewable Fuel and Vehicle Technology  
Program Under Solicitation PON-11-601*  
Publication CEC-600-2012-002-AD2**

The Energy Commission is required under California Code of Regulations, Title 13, Chapter 8.1, Section 2343(c)(6), to consider the localized health impacts and environmental justice when approving projects for funding.

The *Localized Health Impacts Report for Selected Biofuels Production Facilities Projects awarded Funding through the Alternative and Renewable Fuel and Vehicle Technology Program under Solicitation PON-11-601* was posted April 5, 2012, and the 30-day public comment period ended May 7, 2012. An addendum to this report was posted on November 9, 2012 and the 30-day public comment period ended December 9, 2012.

The Energy Commission has published a second addendum to the original Localized Health Impacts Report that analyzes a new location and community impacts of a project proposed for funding under the Program. SacPort Biofuels project “*Renewable Diesel Pilot Project*” has changed location of the project from 3225 Industrial Blvd., West Sacramento, CA 95691 to 238 California Ave., Fort Hunter, CA 93928. The addendum was publicly available on March 23, 2015.

The addendum to the report includes staff application of the Environmental Justice Screening Method (EJSM) to identify projects located in areas with social vulnerability indicators and the greatest exposure to air pollution and associated health risks.
